Challenge 1 (200 XP)

Traits

Dragon's Resistance. The kobold has resistance to a type of damage based on the color of dragon that invested it with power (choose or roll a d10): 1–2, acid (black or copper); 3–4, cold (silver or white); 5–6, fire (brass, gold, or red); 7–8, lightning (blue or bronze); 9–10, poison (green).

Heart of the Dragon. If the kobold is frightened or paralyzed by an effect that allows a saving throw, it can repeat the save at the start of its turn to end the effect on itself and all kobolds within 30 feet of it. Any kobold that benefits from this trait (including the dragonshield) has advantage on its next attack roll.

Pack Tactics. The kobold has advantage on an attack roll against a creature if at least one of the kobold's allies is within 5 feet of the creature and the ally isn't incapacitated.

Sunlight Sensitivity. While in sunlight, the kobold has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

Traits

Confusing Burble. The jabberwock bumbles to itself unless it is incapacitated. Any creature that starts its turn within 30 feet of the jabberwock and is able to hear its bumbling must make a DC 18 Charisma saving throw. On a failed saving throw, the creature can't take reactions until the start of its next turn, and it rolls a d4 to determine what it does during its current turn:

- 1-2. The creature does nothing.
3. The creature does nothing except use all its movement to move in a random direction.
4. The creature either makes one melee attack against a random creature it can see or does nothing if no visible creature is within its reach.

Legendary Resistance (3/Day). If the jabberwock fails a saving throw, it can choose to succeed instead.

Regeneration. The jabberwock regains 10 hit points at the start of its turn. If the jabberwock takes slashing damage, this trait doesn't function at the start of its next turn. The jabberwock dies only if it starts its turn with 0 hit points and doesn't regenerate.

Uncanny Tracker. The jabberwock can unerringly track any creature it has wounded in the last 24 hours, and it knows the distance and direction to its quarry as long as the two of them are on the same plane of existence.

Actions

Multiattack. The jabberwock makes two Rend attacks.

Rend. Melee Weapon Attack: +10 to hit, reach 10 ft., one target. Hit: 21 (3d10 + 5) slashing damage.

Tail. Melee Weapon Attack: +10 to hit, reach 15 ft., one target. Hit: 10 (1d10 + 5) bludgeoning damage.

Fiery Gaze (Recharge 5–6). Unless it is blinded, the jabberwock emits a 120-foot-long, 5-foot-wide line of fire from its eyes. Each creature in that line must make a DC 18 Dexterity saving throw, taking 31 (7d8) fire damage on a failed save, or half as much damage on a successful one.

Legendary Resistance (3/Day). If the dragon fails a saving throw, it can choose to succeed instead.

Actions

Multiattack. The dragon can use its Frightful Presence. It then makes three attacks: one with its bite and two with its claws.

A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the dragon's Frightful Presence for the next 24 hours.

Fire Breath (Recharge 5–6). The dragon exhales fire in a 60-foot cone. Each creature in that area must make a DC 21 Dexterity saving throw, taking 63 (18d6) fire damage on a failed save, or half as much damage on a successful one.

Breath Weapons (Recharge 5–6). The dragon uses one of the following breath weapons:

Change Shape. The dragon magically polymorphs into a humanoid or beast that has a challenge rating no higher than its own, or back into its true form. It reverts to its true form if it dies. Any equipment it is wearing or carrying is absorbed or borne by the new form (the dragon's choice). Actions

Multiattack. The dragon can use its Frightful Presence. It then makes three attacks using its Bite, Tail, or a combination of the two. It can replace one of the attacks with Constrict.

A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. Acid Breath (Recharge 5–6). The dragon exhales acid in a 90-foot line that is 10 feet wide. Each creature in that line must make a DC 22 Dexterity saving throw, taking 67 (15d8) acid damage on a failed save, or half as much damage on a successful one.

On a failed save, the creature can't use reactions, its speed is halved, and it can't make more than one attack on its turn. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the dragon's Frightful Presence for the next 24 hours.

Breath Weapons (Recharge 5–6). The dragon uses one of the following breath weapons.

Cold Breath. The dragon exhales an icy blast in a 90-foot cone. Each creature in that area must make a DC 24 Constitution saving throw, taking 67 (15d8) cold damage on a failed save, or half as much damage on a successful one.

Paralyzing Breath. The dragon exhales paralyzing gas in a 90-foot cone. Each creature in that area must succeed on a DC 24 Constitution saving throw or be paralyzed for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Change Shape. The dragon magically polymorphs into a humanoid or beast that has a challenge rating no higher than its own, or back into its true form. It reverts to its true form if it dies. Any equipment it is wearing or carrying is absorbed or borne by the new form (the dragon's choice). In a new form, the dragon retains its alignment, hit points, Hit Dice, ability to speak, proficiencies, Legendary Resistance, lair actions, and Intelligence, Wisdom, and Charisma scores, as well as this action. Its statistics and capabilities are otherwise replaced by those of the new form, except any class features or legendary actions of that form.

Legendary Actions

Detect. The dragon makes a Wisdom (Perception) check.

Tail Attack. The dragon makes a tail attack.

Wing Attack (Costs 2 Actions). The dragon beats its wings. Each creature within 15 feet of the dragon must succeed on a DC 25 Dexterity saving throw or take 17 (2d6 + 10) bludgeoning damage and be knocked prone. The dragon can then fly up to half its flying speed.

Duration: Concentration, up to 1 minute

You create up to four torch-size lights within range, making them appear as torches, lanterns, or glowing orbs that hover for the duration. Alternatively, you combine the four lights into one glowing Medium form that is vaguely humanlike. Whichever form you choose, each light sheds Dim Light in a 10-foot radius.

As a Bonus Action, you can move the lights up to 60 feet to a space within range. A light must be within 20 feet of another light created by this spell, and a light vanishes if it exceeds the spell's range.

Duration: Instantaneous

This spell repairs a single break or tear in an object you touch, such as a broken chain link, two halves of a broken key, a torn cloak, or a leaking wineskin. As long as the break or tear is no larger than 1 foot in

Sound. If you create a sound, its volume can range from a whisper to a scream. It can be your voice, someone else's voice, a lion's roar, a beating of drums, or any other sound you choose. The sound continues unabated throughout the duration, or you can make discrete sounds at different times before the spell ends.

Image. If you create an image of an object—such as a chair, muddy footprints, or a small chest—it must be no larger than a 5-foot Cube. The image can't create sound, light, smell, or any other sensory effect. Physical interaction with the image reveals it to be an illusion, since things can pass through it.

The servant springs into existence in an unoccupied space on the ground within range. It has AC 10, 1 Hit Point, and a Strength of 2, and it can't attack. If it drops to 0 Hit Points, the spell ends.

Once on each of your turns as a Bonus Action, you can mentally command the servant to move up to 15 feet and interact with an object. The servant can perform simple tasks that a human could do, such as fetching things, cleaning, mending, folding clothes, lighting fires, serving food, and pouring drinks. Once you give the command, the servant performs the task to the best of its ability until it completes the task, then waits for your next command.

If you command the servant to perform a task that would move it more than 60 feet away from you, the spell ends.

2ND LEVEL SPELLS

BLUR

2nd-level illusion

Casting Time: 1 action

Range: Touch

Components: V

Duration: Concentration, up to 1 minute

Your body becomes blurred. For the duration, any creature has Disadvantage on attack rolls against you. An attacker is immune to this effect if it perceives you with Blindsight or Truesight.

CALM EMOTIONS

Components: V, S

Duration: Concentration, up to 1 minute

Each Humanoid in a 20-foot-radius Sphere centered on a point you choose within range must succeed on a Charisma saving throw or be affected by one of the following effects (choose for each creature):

- The creature has Immunity to the Charmed and Frightened conditions until the spell ends. If the

creature was already Charmed or Frightened, those conditions are suppressed for the duration.

- The creature becomes Indifferent about creatures of your choice that it's Hostile toward. This indifference ends if the target takes damage or witnesses its allies taking damage. When the spell ends, the creature's attitude returns to normal.

DARKNESS

2nd-level evocation

Casting Time: 1 action

Range: 60 feet

Components: V, M (bat fur and a piece of coal)

Duration: Concentration, up to 10 minute

For the duration, magical Darkness spreads from a point within range and fills a 15-foot-radius Sphere. Darkvision can't see through it, and nonmagical light can't illuminate it.

Alternatively, you cast the spell on an object that isn't being worn or carried, causing the Darkness to fill a 15-foot Emanation originating from that object. Covering that object with something opaque, such as a bowl or helm, blocks the Darkness.

If any of this spell's area overlaps with an area of Bright Light or Dim Light created by a spell of level 2 or lower, that other spell is dispelled.

DETECT THOUGHTS

2nd-level divination

Casting Time: 1 action

Range: Touch

Components: V, S, M (1 Copper Piece)

Duration: Concentration, up to 1 minute

You activate one of the effects below. Until the spell ends, you can activate either effect as a Magic action on your later turns.

Sense Thoughts. You sense the presence of thoughts within 30 feet of yourself that belong to creatures that know languages or are telepathic. You don't read the thoughts, but you know that a thinking creature is present.

The spell is blocked by 1 foot of stone, dirt, or wood; 1 inch of metal; or a thin sheet of lead.

Read Thoughts. Target one creature you can see within 30 feet of yourself or one creature within 30 feet of yourself that you detected with the Sense Thoughts option. You learn what is most on the target's mind right now. If the target doesn't know any languages and isn't telepathic, you learn nothing.

As a Magic action on your next turn, you can try to probe deeper into the target's mind. If you probe deeper, the target makes a Wisdom saving throw. On a failed save, you discern the target's reasoning, emotions, and something that looms large in its mind (such as a worry, love, or hate). On a successful save, the spell ends. Either way, the target knows that you are probing into its mind, and until you shift your attention away from the target's mind, the target can take an action on its turn to make an

Intelligence (Arcana) check against your spell save DC, ending the spell on a success.

ENLARGE/REDUCE

2nd-level transmutation

Casting Time: 1 action

Range: 30 feet

Components: V, S, M (a pinch of powdered iron)

Duration: Concentration, up to 1 minute

For the duration, the spell enlarges or reduces a creature or an object you can see within range (see the chosen effect below). A targeted object must be neither worn nor carried. If the target is an unwilling creature, it can make a Constitution saving throw. On a successful save, the spell has no effect.

Everything that a targeted creature is wearing and carrying changes size with it. Any item it drops returns to normal size at once. A thrown weapon or piece of ammunition returns to normal size immediately after it hits or misses a target.

Enlarge. The target's size increases by one category—from Medium to Large, for example. The target also has Advantage on Strength checks and Strength saving throws. The target's attacks with its enlarged weapons or Unarmed Strikes deal an extra 1d4 damage on a hit.

Reduce. The target's size decreases by one category—from Medium to Small, for example. The target also has Disadvantage on Strength checks and Strength saving throws. The target's attacks with its reduced weapons or Unarmed Strikes deal 1d4 less damage on a hit (this can't reduce the damage below 1).

FLAMING SPHERE

2nd-level conjuration

Casting Time: 1 action

Range: 60 feet

Components: V, S, M (a ball of wax)

Duration: Concentration, up to 1 minute

You create a 5-foot-diameter sphere of fire in an unoccupied space on the ground within range. It lasts for the duration. Any creature that ends its turn within 5 feet of the sphere makes a Dexterity saving throw, taking 2d6 Fire damage on a failed save or half as much damage on a successful one.

As a Bonus Action, you can move the sphere up to 30 feet, rolling it along the ground. If you move the sphere into a creature's space, that creature makes the save against the sphere, and the sphere stops moving for the turn.

When you move the sphere, you can direct it over barriers up to 5 feet tall and jump it across pits up to 10 feet wide. Flammable objects that aren't being worn or carried start burning if touched by the sphere, and it sheds Bright Light in a 20-foot radius and Dim Light for an additional 20 feet.

Using a Higher-Level Spell Slot. The damage increases by 2d6 for each spell slot level above 2.

HOLD PERSON

2nd-level enchantment

Casting Time: 1 action

Range: 60 feet

Components: V, S, M (a straight piece of iron)

Duration: Concentration, up to 1 minute

Choose a Humanoid that you can see within range. The target must succeed on a Wisdom saving throw or have the Paralyzed condition for the duration. At the end of each of its turns, the target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. You can target one additional Humanoid for each spell slot level above 2.

INVISIBILITY

2nd-level illusion

Casting Time: 1 action

Range: Touch

Components: V, S, M (an eyelash in gum arabic)

Duration: Concentration, up to 1 hour

A creature you touch has the Invisible condition until the spell ends. The spell ends early immediately after the target makes an attack roll, deals damage, or casts a spell.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 2.

LOCATE OBJECT

2nd-level divination

Casting Time: 1 action

Range: Touch

Components: V, S, M (a forked twig)

Duration: Concentration, up to 10 minute

Describe or name an object that is familiar to you. You sense the direction to the object's location if that object is within 1,000 feet of you. If the object is in motion, you know the direction of its movement.

The spell can locate a specific object known to you if you have seen it up close—within 30 feet—at least once. Alternatively, the spell can locate the nearest object of a particular kind, such as a certain kind of apparel, jewelry, furniture, tool, or weapon.

This spell can't locate an object if any thickness of lead blocks a direct path between you and the object.

MIRROR IMAGE

2nd-level illusion

Casting Time: 1 action

Range: Touch

Components: V, S

Duration: 1 minute

Three illusory duplicates of yourself appear in your space. Until the spell ends, the duplicates move with you and mimic your actions, shifting position so it's impossible to track which image is real.

Each time a creature hits you with an attack roll during the spell's duration, roll a d6 for each of your

remaining duplicates. If any of the d6s rolls a 3 or higher, one of the duplicates is hit instead of you, and the duplicate is destroyed. The duplicates otherwise ignore all other damage and effects. The spell ends when all three duplicates are destroyed.

A creature is unaffected by this spell if it has the Blinded condition, Blindsight, or Truesight.

SCORCHING RAY

2nd-level evocation

Casting Time: 1 action

Range: 120 feet

Components: V, S

Duration: Instantaneous

You hurl three fiery rays. You can hurl them at one target within range or at several. Make a ranged spell attack for each ray. On a hit, the target takes 2d6 Fire damage.

Using a Higher-Level Spell Slot. You create one additional ray for each spell slot level above 2.

SUGGESTION

2nd-level enchantment

Casting Time: 1 action

Range: 30 feet

Components: V, M (a drop of honey)

Duration: Concentration, up to 8 hour

You suggest a course of activity—described in no more than 25 words—to one creature you can see within range that can hear and understand you. The suggestion must sound achievable and not involve anything that would obviously deal damage to the target or its allies. For example, you could say, "Fetch the key to the cult's treasure vault, and give the key to me." Or you could say, "Stop fighting, leave this library peacefully, and don't return."

The target must succeed on a Wisdom saving throw or have the Charmed condition for the duration or until you or your allies deal damage to the target. The Charmed target pursues the suggestion to the best of its ability. The suggested activity can continue for the entire duration, but if the suggested activity can be completed in a shorter time, the spell ends for the target upon completing it.

3RD LEVEL SPELLS

COUNTERSPELL

3rd-level abjuration

Casting Time: 1 reaction (which you take when you see a creature within 60 feet of yourself casting a spell with Verbal, Somatic, or Material components)

Range: 60 feet

Components: S

Duration: Instantaneous

You attempt to interrupt a creature in the process of casting a spell. The creature makes a Constitution saving throw. On a failed save, the spell dissipates with no effect, and the action, Bonus Action, or

Reaction used to cast it is wasted. If that spell was cast with a spell slot, the slot isn't expended.

CREATE FOOD AND WATER

3rd-level conjuration

Casting Time: 1 action

Range: 30 feet

Components: V, S

Duration: Instantaneous

You create 45 pounds of food and 30 gallons of fresh water on the ground or in containers within range—both useful in fending off the hazards of malnutrition and dehydration. The food is bland but nourishing and looks like a food of your choice, and the water is clean. The food spoils after 24 hours if uneaten.

DISPEL MAGIC

3rd-level abjuration

Casting Time: 1 action

Range: 120 feet

Components: V, S

Duration: Instantaneous

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (DC 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

FIREBALL

3rd-level evocation

Casting Time: 1 action

Range: 150 feet

Components: V, S, M (a ball of bat guano and sulfur)

Duration: Instantaneous

A bright streak flashes from you to a point you choose within range and then blossoms with a low roar into a fiery explosion. Each creature in a 20-foot-radius Sphere centered on that point makes a Dexterity saving throw, taking 8d6 Fire damage on a failed save or half as much damage on a successful one.

Flammable objects in the area that aren't being worn or carried start burning.

Using a Higher-Level Spell Slot. The damage increases by 8d6 for each spell slot level above 3.

HASTE

3rd-level transmutation

Casting Time: 1 action

Range: 30 feet

Components: V, S, M (a shaving of licorice root)

Duration: Concentration, up to 1 minute

Choose a willing creature that you can see within range. Until the spell ends, the target's Speed is doubled, it gains a +2 bonus to Armor Class, it has Advantage on Dexterity saving throws, and it gains an additional action on each of its turns. That action can be used to take only the Attack (one attack only), Dash, Disengage, Hide, or Utilize action.

When the spell ends, the target is Incapacitated and has a Speed of 0 until the end of its next turn, as a wave of lethargy washes over it.

LIGHTNING BOLT

3rd-level evocation

Casting Time: 1 action

Range: Line

Components: V, S, M (a bit of fur and a crystal rod)

Duration: Instantaneous

A stroke of lightning forming a 100-foot-long, 5-foot-wide Line blasts out from you in a direction you choose. Each creature in the Line makes a Dexterity saving throw, taking 8d6 Lightning damage on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 8d6 for each spell slot level above 3.

MAJOR IMAGE

3rd-level illusion

Casting Time: 1 action

Range: 120 feet

Components: V, S, M (a bit of fleece)

Duration: Concentration, up to 10 minute

You create the image of an object, a creature, or some other visible phenomenon that is no larger than a 20-foot Cube. The image appears at a spot that you can see within range and lasts for the duration. It seems real, including sounds, smells, and temperature appropriate to the thing depicted, but it can't deal damage or cause conditions.

If you are within range of the illusion, you can take a Magic action to cause the image to move to any other spot within range. As the image changes location, you can alter its appearance so that its movements appear natural for the image. For example, if you create an image of a creature and move it, you can alter the image so that it appears to be walking. Similarly, you can cause the illusion to make different sounds at different times, even making it carry on a conversation, for example.

Physical interaction with the image reveals it to be an illusion, for things can pass through it. A creature that takes a Study action to examine the image can determine that it is an illusion with a successful Intelligence (Investigation) check against your spell save DC. If a creature discerns the illusion for what it is, the creature can see through the image, and its other sensory qualities become faint to the creature.

Using a Higher-Level Spell Slot. The spell lasts until dispelled, without requiring Concentration, if cast with a level 4+ spell slot.

PROTECTION FROM ENERGY

3rd-level abjuration

Casting Time: 1 action

Range: Touch

Components: V, S

Duration: Concentration, up to 1 hour

For the duration, the willing creature you touch has Resistance to one damage type of your choice: Acid, Cold, Fire, Lightning, or Thunder.

SLOW

3rd-level transmutation

Casting Time: 1 action

Range: 120 feet

Components: V, S, M (a drop of molasses)

Duration: Concentration, up to 1 minute

You alter time around up to six creatures of your choice in a 40-foot Cube within range. Each target must succeed on a Wisdom saving throw or be affected by this spell for the duration.

An affected target's Speed is halved, it takes a -2 penalty to AC and Dexterity saving throws, and it can't take Reactions. On its turns, it can take either an action or a Bonus Action, not both, and it can make only one attack if it takes the Attack action. If it casts a spell with a Somatic component, there is a 25 percent chance the spell fails as a result of the target making the spell's gestures too slowly.

An affected target repeats the save at the end of each of its turns, ending the spell on itself on a success.

4TH LEVEL SPELLS

BANISHMENT

4th-level abjuration

Casting Time: 1 action

Range: 30 feet

Components: V, S, M (a pentacle)

Duration: Concentration, up to 1 minute

One creature that you can see within range must succeed on a Charisma saving throw or be transported to a harmless demiplane for the duration. While there, the target has the Incapacitated condition. When the spell ends, the target reappears in the space it left or in the nearest unoccupied space if that space is occupied.

If the target is an Aberration, a Celestial, an Elemental, a Fey, or a Fiend, the target doesn't return if the spell lasts for 1 minute. The target is instead transported to a random location on a plane (DM's choice) associated with its creature type.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 4.

CONFUSION

4th-level enchantment

Casting Time: 1 action

Range: 90 feet

Components: V, S, M (three nut shells)

Duration: Concentration, up to 1 minute

Each creature in a 10-foot-radius Sphere centered on a point you choose within range must succeed on a Wisdom saving throw, or that target can't take Bonus Actions or Reactions and must roll 1d10 at the start of each of its turns to determine its behavior for that turn, consulting the table below.

1d10	Behavior for the Turn
1	The target doesn't take an action, and it uses all its movement to move. Roll 1d4 for the direction: 1, north; 2, east; 3, south; or 4, west.
2-6	The target doesn't move or take actions.
7-8	The target doesn't move, and it takes the Attack action to make one melee attack against a random creature within reach. If none are within reach, the target takes no action.
9-10	The target chooses its behavior.

At the end of each of its turns, an affected target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. The Sphere's radius increases by 5 feet for each spell slot level above 4.

DIMENSION DOOR

4th-level conjuration

Casting Time: 1 action

Range: 500 feet

Components: V

Duration: Instantaneous

You teleport to a location within range. You arrive at exactly the spot desired. It can be a place you can see, one you can visualize, or one you can describe by stating distance and direction, such as "200 feet straight downward" or "300 feet upward to the northwest at a 45-degree angle."

You can also teleport one willing creature. The creature must be within 5 feet of you when you teleport, and it teleports to a space within 5 feet of your destination space.

If you, the other creature, or both would arrive in a space occupied by a creature or completely filled by one or more objects, you and any creature traveling with you each take 4d6 Force damage, and the teleportation fails.

FABRICATE

4th-level transmutation

Casting Time: 10 minutes

Range: 120 feet

Components: V, S

Duration: Instantaneous

You convert raw materials into products of the same material. For example, you can fabricate a wooden bridge from a clump of trees, a rope from a patch of hemp, or clothes from flax or wool.

Choose raw materials that you can see within range. You can fabricate a Large or smaller object

(contained within a 10-foot Cube or eight connected 5-foot Cubes) given a sufficient quantity of material. If you're working with metal, stone, or another mineral substance, however, the fabricated object can be no larger than Medium (contained within a 5-foot Cube). The quality of any fabricated objects is based on the quality of the raw materials.

Creatures and magic items can't be created by this spell. You also can't use it to create items that require a high degree of skill—such as weapons and armor—unless you have proficiency with the type of *Artisan's Tools* used to craft such objects.

GREATER INVISIBILITY

4th-level illusion

Casting Time: 1 action

Range: Touch

Components: V, S

Duration: Concentration, up to 1 minute

A creature you touch has the Invisible condition until the spell ends.

GREATER INVISIBILITY

4th-level illusion

Casting Time: 1 action

Range: Touch

Components: V, S

Duration: Concentration, up to 1 minute

A creature you touch has the Invisible condition until the spell ends.

HALLUCINATORY TERRAIN

4th-level illusion

Casting Time: 10 minutes

Range: 300 feet

Components: V, S, M (a mushroom)

Duration: 24 hour

You make natural terrain in a 150-foot Cube in range look, sound, and smell like another sort of natural terrain. Thus, open fields or a road can be made to resemble a swamp, hill, crevasse, or some other difficult or impassable terrain. A pond can be made to seem like a grassy meadow, a precipice like a gentle slope, or a rock-strewn gully like a wide and smooth road. Manufactured structures, equipment, and creatures within the area aren't changed.

The tactile characteristics of the terrain are unchanged, so creatures entering the area are likely to notice the illusion. If the difference isn't obvious by touch, a creature examining the illusion can take the Study action to make an Intelligence (Investigation) check against your spell save DC to disbelieve it. If a creature discerns that the terrain is illusory, the creature sees a vague image superimposed on the real terrain.

ICE STORM

4th-level evocation

Casting Time: 1 action

Range: 300 feet

Components: V, S, M (a mitten)

Duration: Instantaneous

Hail falls in a 20-foot-radius, 40-foot-high Cylinder centered on a point within range. Each creature in the Cylinder makes a Dexterity saving throw. A creature takes 2d10 Bludgeoning damage and 4d6 Cold damage on a failed save or half as much damage on a successful one.

Hailstones turn ground in the Cylinder into Difficult Terrain until the end of your next turn.

Using a Higher-Level Spell Slot. The Bludgeoning damage increases by 2d8 for each spell slot level above 4.

POLYMORPH

4th-level transmutation

Casting Time: 1 action

Range: 60 feet

Components: V, S, M (a caterpillar cocoon)

Duration: Concentration, up to 1 hour

You attempt to transform a creature that you can see within range into a Beast. The target must succeed on a Wisdom saving throw or shape-shift into Beast form for the duration. That form can be any Beast you choose that has a Challenge Rating equal to or less than the target's (or the target's level if it doesn't have a Challenge Rating). The target's game statistics are replaced by the stat block of the chosen Beast, but the target retains its alignment, personality, creature type, Hit Points, and Hit Point Dice.

The target gains a number of Temporary Hit Points equal to the Hit Points of the Beast form. These Temporary Hit Points vanish if any remain

when the spell ends. The spell ends early on the target if it has no Temporary Hit Points left.

The target is limited in the actions it can perform by the anatomy of its new form, and it can't speak or cast spells.

The target's gear melds into the new form. The creature can't use or otherwise benefit from any of that equipment.

STONE SHAPE

4th-level transmutation

Casting Time: 1 action

Range: Touch

Components: V, S, M (soft clay)

Duration: Instantaneous

You touch a stone object of Medium size or smaller or a section of stone no more than 5 feet in any dimension and form it into any shape you like. For example, you could shape a large rock into a weapon, statue, or coffer, or you could make a small passage through a wall that is 5 feet thick. You could also shape a stone door or its frame to seal the door shut. The object you create can have up to two hinges and a latch, but finer mechanical detail isn't possible.

STONESKIN

4th-level transmutation

Casting Time: 1 action

Range: Touch

Components: V, S, M (diamond dust worth 100+ GP, which the spell consumes)

Duration: Concentration, up to 1 hour

Until the spell ends, one willing creature you touch has Resistance to Bludgeoning, Piercing, and Slashing damage.

WALL OF FIRE

4th-level evocation

Casting Time: 1 action

Range: 120 feet

Components: V, S, M (a piece of charcoal)

Duration: Concentration, up to 1 minute

You create a wall of fire on a solid surface within range. You can make the wall up to 60 feet long, 20 feet high, and 1 foot thick, or a ringed wall up to 20 feet in diameter, 20 feet high, and 1 foot thick. The wall is opaque and lasts for the duration.

When the wall appears, each creature in its area makes a Dexterity saving throw, taking 5d8 Fire damage on a failed save or half as much damage on a successful one.

One side of the wall, selected by you when you cast this spell, deals 5d8 Fire damage to each creature that ends its turn within 10 feet of that side or inside the wall. A creature takes the same damage when it enters the wall for the first time on a turn or ends its turn there. The other side of the wall deals no damage.

Using a Higher-Level Spell Slot. The damage increases by 5d8 for each spell slot level above 4.

5TH LEVEL SPELLS

CLOUDKILL

5th-level conjuration

Casting Time: 1 action

Range: 120 feet

Components: V, S

Duration: Concentration, up to 10 minute

You create a 20-foot-radius Sphere of yellow-green fog centered on a point within range. The fog lasts for the duration or until strong wind (such as the one created by *Gust of Wind*) disperses it, ending the spell. Its area is Heavily Obscured.

Each creature in the Sphere makes a Constitution saving throw, taking 5d8 Poison damage on a failed save or half as much damage on a successful one. A creature must also make this save when the Sphere moves into its space and when it enters the Sphere or ends its turn there. A creature makes this save only once per turn.

The Sphere moves 10 feet away from you at the start of each of your turns.

Using a Higher-Level Spell Slot. The damage increases by 5d8 for each spell slot level above 5.

CONJURE ELEMENTAL

5th-level conjuration

Casting Time: 1 action

Range: 60 feet

Components: V, S

Duration: Concentration, up to 10 minute

You conjure a Large, intangible spirit from the Elemental Planes that appears in an unoccupied space within range. Choose the spirit's element, which determines its damage type: air (Lightning), earth (Thunder), fire (Fire), or water (Cold). The spirit lasts for the duration.

Whenever a creature you can see enters the spirit's space or starts its turn within 5 feet of the spirit, you can force that creature to make a Dexterity saving throw if the spirit has no creature Restrained. On a failed save, the target takes 8d8 damage of the spirit's type, and the target has the Restrained condition until the spell ends. At the start of each of its turns, the Restrained target repeats the save. On a failed save, the target takes 4d8 damage of the spirit's type. On a successful save, the target isn't Restrained by the spirit.

Using a Higher-Level Spell Slot. The damage increases by 8d8;4d8 for each spell slot level above 5.

SCRYING

5th-level divination

Casting Time: 10 minutes

Range: Touch

Components: V, S, M (a focus worth 1,000+ GP, such as a crystal ball, mirror, or water-filled font)

Duration: Concentration, up to 10 minute

You can see and hear a creature you choose that is on the same plane of existence as you. The target makes a Wisdom saving throw, which is modified (see the tables below) by how well you know the target and the sort of physical connection you have to it. The target doesn't know what it is making the save against, only that it feels uneasy.

Your Knowledge of the Target Is...	Save Modifier
Secondhand (heard of the target)	+5
Firsthand (met the target)	+0
Extensive (know the target well)	-5

You Have the Target's...	Save Modifier
Picture or other likeness	-2
Garment or other possession	-4
Body part, lock of hair, or bit of nail	-10

On a successful save, the target isn't affected, and you can't use this spell on it again for 24 hours.

On a failed save, the spell creates an Invisible, intangible sensor within 10 feet of the target. You can see and hear through the sensor as if you were there. The sensor moves with the target, remaining within 10 feet of it for the duration. If something can see the sensor, it appears as a luminous orb about the size of your fist.

Instead of targeting a creature, you can target a location you have seen. When you do so, the sensor appears at that location and doesn't move.

TELEKINESIS

5th-level transmutation

Casting Time: 1 action

Range: 60 feet

Components: V, S

Duration: Concentration, up to 10 minute

You gain the ability to move or manipulate creatures or objects by thought. When you cast the spell and as a Magic action on your later turns before the spell ends, you can exert your will on one creature or object that you can see within range, causing the appropriate effect below. You can affect the same target round after round or choose a new one at any time. If you switch targets, the prior target is no longer affected by the spell.

Creature. You can try to move a Huge or smaller creature. The target must succeed on a Strength saving throw, or you move it up to 30 feet in any direction within the spell's range. Until the end of your next turn, the creature has the Restrained condition, and if you lift it into the air, it is suspended there. It falls at the end of your next turn unless you use this option on it again and it fails the save.

Object. You can try to move a Huge or smaller object. If the object isn't being worn or carried, you automatically move it up to 30 feet in any direction within the spell's range.

If the object is worn or carried by a creature, that creature must succeed on a Strength saving throw, or you pull the object away and move it up to 30 feet in any direction within the spell's range.

You can exert fine control on objects with your telekinetic grip, such as manipulating a simple tool, opening a door or a container, stowing or retrieving an item from an open container, or pouring the contents from a vial.

TELEPORTATION CIRCLE

5th-level conjuration

Casting Time: 1 minute

Range: 10 feet

Components: V, M (rare inks worth 50+ GP, which the spell consumes)

Duration: 1 round

As you cast the spell, you draw a 5-foot-radius circle on the ground inscribed with sigils that link your location to a permanent teleportation circle of your choice whose sigil sequence you know and that is on the same plane of existence as you. A shimmering portal opens within the circle you drew and remains open until the end of your next turn. Any creature that enters the portal instantly appears within 5 feet of the destination circle or in the nearest unoccupied space if that space is occupied.

Many major temples, guildhalls, and other important places have permanent teleportation circles. Each circle includes a unique sigil sequence—a string of runes arranged in a particular pattern.

When you first gain the ability to cast this spell, you learn the sigil sequences for two destinations on

the Material Plane, determined by the DM. You might learn additional sigil sequences during your adventures. You can commit a new sigil sequence to memory after studying it for 1 minute.

You can create a permanent teleportation circle by casting this spell in the same location every day for 365 days.

WALL OF FORCE

5th-level evocation

Casting Time: 1 action

Range: 120 feet

Components: V, S, M (a shard of glass)

Duration: Concentration, up to 10 minute

An Invisible wall of force springs into existence at a point you choose within range. The wall appears in any orientation you choose, as a horizontal or vertical barrier or at an angle. It can be free floating or resting on a solid surface. You can form it into a hemispherical dome or a globe with a radius of up to 10 feet, or you can shape a flat surface made up of ten 10-foot-by-10-foot panels. Each panel must be contiguous with another panel. In any form, the wall is 1/4 inch thick and lasts for the duration. If the wall cuts through a creature's space when it appears, the creature is pushed to one side of the wall (you choose which side).

Nothing can physically pass through the wall. It is immune to all damage and can't be dispelled by *Dispel Magic*. A *Disintegrate* spell destroys the wall instantly, however. The wall also extends into the Ethereal Plane and blocks ethereal travel through the wall.

6TH LEVEL SPELLS

CHAIN LIGHTNING

6th-level evocation

Casting Time: 1 action

Range: 150 feet

Components: V, S, M (three silver pins)

Duration: Instantaneous

You launch a lightning bolt toward a target you can see within range. Three bolts then leap from that target to as many as three other targets of your choice, each of which must be within 30 feet of the first target. A target can be a creature or an object and can be targeted by only one of the bolts.

Each target makes a Dexterity saving throw, taking 10d8 Lightning damage on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. One additional bolt leaps from the first target to another target for each spell slot level above 6.

DISINTEGRATE

6th-level transmutation

Casting Time: 1 action

Range: 60 feet

Components: V, S, M (a lodestone and dust)

Duration: Instantaneous

You launch a green ray at a target you can see within range. The target can be a creature, a nonmagical object, or a creation of magical force, such as the wall created by *Wall of Force*.

A creature targeted by this spell makes a Dexterity saving throw. On a failed save, the target takes 10d6 + 40 Force damage. If this damage reduces it to 0 Hit Points, it and everything nonmagical it is wearing and carrying are disintegrated into gray dust. The target can be revived only by a *True Resurrection* or a *Wish* spell.

This spell automatically disintegrates a Large or smaller nonmagical object or a creation of magical force. If such a target is Huge or larger, this spell disintegrates a 10-foot-Cube portion of it.

Using a Higher-Level Spell Slot. The damage increases by 10d6 + 40 for each spell slot level above 6.

FIND THE PATH

6th-level divination

Casting Time: 1 minute

Range: Touch

Components: V, S, M (a set of divination tools—such as cards or runes—worth 100+ GP)

Duration: Concentration, up to 1 day

You magically sense the most direct physical route to a location you name. You must be familiar with the location, and the spell fails if you name a destination on another plane of existence, a moving destination (such as a mobile fortress), or an unspecific destination (such as "a green dragon's lair").

For the duration, as long as you are on the same plane of existence as the destination, you know how far it is and in what direction it lies. Whenever you face a choice of paths along the way there, you know which path is the most direct.

MASS SUGGESTION

6th-level enchantment

Casting Time: 1 action

Range: 60 feet

Components: V, M (a snake's tongue)

Duration: 24 hour

You suggest a course of activity—described in no more than 25 words—to twelve or fewer creatures you can see within range that can hear and understand you. The suggestion must sound achievable and not involve anything that would obviously deal damage to any of the targets or their allies. For example, you could say, "Walk to the village down that road, and help the villagers there harvest crops until sunset." Or you could say, "Now is not the time for violence. Drop your weapons, and dance! Stop in an hour."

Each target must succeed on a Wisdom saving throw or have the Charmed condition for the duration or until you or your allies deal damage to the target. Each Charmed target pursues the

suggestion to the best of its ability. The suggested activity can continue for the entire duration, but if the suggested activity can be completed in a shorter time, the spell ends for a target upon completing it.

Using a Higher-Level Spell Slot. The duration is longer with a spell slot of level 7 (10 days), 8 (30 days), or 9 (366 days).

TRUE SEEING

6th-level divination

Casting Time: 1 action

Range: Touch

Components: V, S, M (mushroom powder worth 25+ GP, which the spell consumes)

Duration: 1 hour

For the duration, the willing creature you touch has Truesight with a range of 120 feet.

7TH LEVEL SPELLS

ETHEREALNESS

7th-level conjuration

Casting Time: 1 action

Range: Touch

Components: V, S

Duration: 8 hour

You step into the border regions of the Ethereal Plane, where it overlaps with your current plane. You remain in the Border Ethereal for the duration. During this time, you can move in any direction. If you move up or down, every foot of movement costs an extra foot. You can perceive the plane you left, which looks gray, and you can't see anything there more than 60 feet away.

While on the Ethereal Plane, you can affect and be affected only by creatures, objects, and effects on that plane. Creatures that aren't on the Ethereal Plane can't perceive or interact with you unless a feature gives them the ability to do so.

When the spell ends, you return to the plane you left in the spot that corresponds to your space in the Border Ethereal. If you appear in an occupied space, you are shunted to the nearest unoccupied space and take Force damage equal to twice the number of feet you are moved.

This spell ends instantly if you cast it while you are on the Ethereal Plane or a plane that doesn't border it, such as one of the Outer Planes.

Using a Higher-Level Spell Slot. You can target up to three willing creatures (including yourself) for each spell slot level above 7. The creatures must be within 10 feet of you when you cast the spell.

MIRAGE ARCANÉ

7th-level illusion

Casting Time: 10 minutes

Range: Touch

Components: V, S

Duration: 10 day

You make terrain in an area up to 1 mile square look, sound, smell, and even feel like some other sort of terrain. Open fields or a road could be made to resemble a swamp, hill, crevasse, or some other rough or impassable terrain. A pond can be made to seem like a grassy meadow, a precipice like a gentle slope, or a rock-strewn gully like a wide and smooth road.

Similarly, you can alter the appearance of structures or add them where none are present. The spell doesn't disguise, conceal, or add creatures.

The illusion includes audible, visual, tactile, and olfactory elements, so it can turn clear ground into Difficult Terrain (or vice versa) or otherwise impede movement through the area. Any piece of the illusory terrain (such as a rock or stick) that is removed from the spell's area disappears immediately.

Creatures with Truesight can see through the illusion to the terrain's true form; however, all other elements of the illusion remain, so while the creature is aware of the illusion's presence, the creature can still physically interact with the illusion.

PRISMATIC SPRAY

7th-level evocation

Casting Time: 1 action

Range: Cone

Components: V, S

Duration: Instantaneous

Eight rays of light flash from you in a 60-foot Cone. Each creature in the Cone makes a Dexterity saving throw. For each target, roll 1d8 to determine which color ray affects it, consulting the Prismatic Rays table.

Prismatic Rays

1d8	Ray
1	Red. <i>Failed Save:</i> 12d6 Fire damage. <i>Successful Save:</i> Half as much damage.
2	Orange. <i>Failed Save:</i> 12d6 Acid damage. <i>Successful Save:</i> Half as much damage.
3	Yellow. <i>Failed Save:</i> 12d6 Lightning damage. <i>Successful Save:</i> Half as much damage.
4	Green. <i>Failed Save:</i> 12d6 Poison damage. <i>Successful Save:</i> Half as much damage.
5	Blue. <i>Failed Save:</i> 12d6 Cold damage. <i>Successful Save:</i> Half as much damage.
6	Indigo. <i>Failed Save:</i> The target has the Restrained condition and makes a Constitution saving throw at the end of each of its turns. If it successfully saves three times, the condition ends. If it fails three times, it has the Petrified condition until it is freed by an effect like the <i>Greater Restoration</i> spell. The successes and failures needn't be consecutive; keep track of both until the target collects three of a kind.
7	Violet. <i>Failed Save:</i> The target has the Blinded condition and makes a Wisdom saving throw at the start of your next turn. On a successful save, the condition ends. On a failed save, the condition ends, and the creature teleports to another plane of existence (DM's choice).
8	Special. The target is struck by two rays. Roll twice, rerolling any 8.

PROJECT IMAGE

7th-level illusion

Casting Time: 1 action

Range: 500 miles

Components: V, S, M (a statuette of yourself worth 5+ GP)

Duration: Concentration, up to 1 day

You create an illusory copy of yourself that lasts for the duration. The copy can appear at any location within range that you have seen before, regardless of intervening obstacles. The illusion looks and sounds like you, but it is intangible. If the illusion takes any damage, it disappears, and the spell ends.

You can see through the illusion's eyes and hear through its ears as if you were in its space. As a Magic action, you can move it up to 60 feet and make it gesture, speak, and behave in whatever way you choose. It mimics your mannerisms perfectly.

Physical interaction with the image reveals it to be illusory, since things can pass through it. A creature that takes the Study action to examine the image can determine that it is an illusion with a successful Intelligence (Investigation) check against your spell save DC. If a creature discerns the illusion for what it is, the creature can see through the image, and any noise it makes sounds hollow to the creature.

REVERSE GRAVITY

7th-level transmutation

Casting Time: 1 action

Range: 100 feet

Components: V, S, M (a lodestone and iron filings)

Duration: Concentration, up to 1 minute

This spell reverses gravity in a 50-foot-radius, 100-foot high Cylinder centered on a point within range. All creatures and objects in that area that aren't anchored to the ground fall upward and reach the top of the Cylinder. A creature can make a Dexterity saving throw to grab a fixed object it can reach, thus avoiding the fall upward.

If a ceiling or an anchored object is encountered in this upward fall, creatures and objects strike it just as they would during a downward fall. If an affected creature or object reaches the Cylinder's top without striking anything, it hovers there for the duration. When the spell ends, affected objects and creatures fall downward.

TELEPORT

7th-level conjuration

Casting Time: 1 action

Range: 10 feet

Components: V

Duration: Instantaneous

This spell instantly transports you and up to eight willing creatures that you can see within range, or a single object that you can see within range, to a destination you select. If you target an object, it must be Large or smaller, and it can't be held or carried by an unwilling creature.

The destination you choose must be known to you, and it must be on the same plane of existence as you. Your familiarity with the destination determines whether you arrive there successfully. The DM rolls 1d100 and consults the Teleportation Outcome table and the explanations after it.

Teleportation Outcome

Familiarity	Mishap	Similar Area	Off Target	On Target
Permanent circle	—	—	—	01-00
Linked object	—	—	—	01-00
Very familiar	01-05	06-13	14-24	25-00
Seen casually	01-33	34-43	44-53	54-00
Viewed once or described	01-43	44-53	54-73	74-00
False destination	01-50	51-00	—	—

Familiarity. Here are the meanings of the terms in the table's Familiarity column:

- "Permanent circle" means a permanent teleportation circle whose sigil sequence you know.
- "Linked object" means you possess an object taken from the desired destination within the last six months, such as a book from a wizard's library.
- "Very familiar" is a place you have visited often, a place you have carefully studied, or a place you can see when you cast the spell.
- "Seen casually" is a place you have seen more than once but with which you aren't very familiar.
- "Viewed once or described" is a place you have seen once, possibly using magic, or a place you know through someone else's description, perhaps from a map.

- "False destination" is a place that doesn't exist. Perhaps you tried to scry an enemy's sanctum but instead viewed an illusion, or you are attempting to teleport to a location that no longer exists.

Mishap. The spell's unpredictable magic results in a difficult journey. Each teleporting creature (or the target object) takes 3d10 Force damage, and the DM rerolls on the table to see where you wind up (multiple mishaps can occur, dealing damage each time).

Similar Area. You and your group (or the target object) appear in a different area that's visually or thematically similar to the target area. You appear in the closest similar place. If you are heading for your home laboratory, for example, you might appear in another person's laboratory in the same city.

Off Target. You and your group (or the target object) appear 2d12 miles away from the destination in a random direction. Roll 1d8 for the direction: 1, east; 2, southeast; 3, south; 4, southwest; 5, west; 6, northwest; 7, north; or 8, northeast.

On Target. You and your group (or the target object) appear where you intended.

8TH LEVEL SPELLS

CONTROL WEATHER

8th-level transmutation

Casting Time: 10 minutes

Range: Sphere

Components: V, S, M (burning incense)

Duration: Concentration, up to 8 hour

You take control of the weather within 5 miles of you for the duration. You must be outdoors to cast this spell, and it ends early if you go indoors.

When you cast the spell, you change the current weather conditions, which are determined by the DM. You can change precipitation, temperature, and wind. It takes 1d4 × 10 minutes for the new conditions to take effect. Once they do so, you can change the conditions again. When the spell ends, the weather gradually returns to normal.

When you change the weather conditions, find a current condition on the following tables and change its stage by one, up or down. When changing the wind, you can change its direction.

MAZE

8th-level conjuration

Casting Time: 1 action

Range: 60 feet

Components: V, S

Duration: Concentration, up to 10 minute

You banish a creature that you can see within range into a labyrinthine demiplane. The target remains there for the duration or until it escapes the maze.

The target can take a Study action to try to escape. When it does so, it makes a DC 20 Intelligence (Investigation) check. If it succeeds, it escapes, and the spell ends.

When the spell ends, the target reappears in the space it left or, if that space is occupied, in the nearest unoccupied space.

POWER WORD STUN

8th-level enchantment

Casting Time: 1 action

Range: 60 feet

Components: V

Duration: Instantaneous

You overwhelm the mind of one creature you can see within range. If the target has 150 Hit Points or fewer, it has the Stunned condition. Otherwise, its Speed is 0 until the start of your next turn.

The Stunned target makes a Constitution saving throw at the end of each of its turns, ending the condition on itself on a success.

9TH LEVEL SPELLS

PRISMATIC WALL

9th-level abjuration

Casting Time: 1 action

Range: 60 feet

Components: V, S

Duration: 10 minute

A shimmering, multicolored plane of light forms a vertical opaque wall—up to 90 feet long, 30 feet high, and 1 inch thick—centered on a point within range. Alternatively, you shape the wall into a globe up to 30 feet in diameter centered on a point within range. The wall lasts for the duration. If you position the wall in a space occupied by a creature, the spell ends instantly without effect.

The wall sheds Bright Light within 100 feet and Dim Light for an additional 100 feet. You and creatures you designate when you cast the spell can pass through and be near the wall without harm. If another creature that can see the wall moves within 20 feet of it or starts its turn there, the creature must succeed on a Constitution saving throw or have the Blinded condition for 1 minute.

The wall consists of seven layers, each with a different color. When a creature reaches into or passes through the wall, it does so one layer at a time through all the layers. Each layer forces the creature to make a Dexterity saving throw or be affected by that layer's properties as described in the Prismatic Layers table.

The wall, which has AC 10, can be destroyed one layer at a time, in order from red to violet, by means specific to each layer. If a layer is destroyed, it is gone for the duration. *Antimagic Field* has no effect on the wall, and *Dispel Magic* can affect only the violet layer.

Prismatic Layers

Order	Effects
1	Red. <i>Failed Save:</i> 12d6 Fire damage. <i>Successful Save:</i> Half as much damage. <i>Additional Effects:</i> Nonmagical ranged attacks can't pass through this layer, which is destroyed if it takes at least 25 Cold damage.
2	Orange. <i>Failed Save:</i> 12d6 Acid damage. <i>Successful Save:</i> Half as much damage. <i>Additional Effects:</i> Magical ranged attacks can't pass through this layer, which is destroyed by a strong wind (such as the one created by <i>Gust of Wind</i>).
3	Yellow. <i>Failed Save:</i> 12d6 Lightning damage. <i>Successful Save:</i> Half as much damage. <i>Additional Effects:</i> The layer is destroyed if it takes at least 60 Force damage.
4	Green. <i>Failed Save:</i> 12d6 Poison damage. <i>Successful Save:</i> Half as much damage. <i>Additional Effects:</i> A <i>Passwall</i> spell, or another spell of equal or greater level that can open a portal on a solid surface, destroys this layer.
5	Blue. <i>Failed Save:</i> 12d6 Cold damage. <i>Successful Save:</i> Half as much damage. <i>Additional Effects:</i> The layer is destroyed if it takes at least 25 Fire damage.
6	Indigo. <i>Failed Save:</i> The target has the Restrained condition and makes a Constitution saving throw at the end of each of its turns. If it successfully saves three times, the condition ends. If it fails three times, it has the Petrified condition until it is freed by an effect like the <i>Greater Restoration</i> spell. The successes and failures needn't be consecutive; keep track of both until the target collects three of a kind. <i>Additional Effects:</i> Spells can't be cast through this layer, which is destroyed by Bright Light shed by the <i>Daylight</i> spell.
7	Violet. <i>Failed Save:</i> The target has the Blinded condition and makes a Wisdom saving throw at the start of your next turn. On a successful save, the condition ends. On a failed save, the condition ends, and the creature teleports to another plane of existence (DM's choice). <i>Additional Effects:</i> This layer is destroyed by <i>Dispel Magic</i> .
